Three paths out of MCA debt

Restructuring

An attorney renegotiates the terms, usually replacing daily or weekly debits with smaller payments over a longer period.

Settlement

Where the contracts allow it, the attorney negotiates with each funder to resolve the balance for less, with every agreement in writing.

Refinance

When the business qualifies, licensed lenders offer term and SBA loans to replace stacked advances with one payment.

Industries we see most

- Trucking and logistics
- Restaurants and hospitality
- Construction and the trades
- Medical and dental practices
- Retail, e-commerce and auto businesses

Situations that call for a referral

- Two or more advances stacked at once
- Debits leaving too little for payroll and rent
- Bank or SBA loans declined over MCA positions
- Collection calls, default notices or UCC letters
- A frozen account, judgment or lawsuit
